### DETAILED ACTION

**Please Note:** In an effort to enhance communication with our customers and reduce processing time, Group 1615 is running a fax response pilot for Restriction Pilot for Written Restriction Requirements. A dedicated fax machine is in place to receive your responses. The Fax number is (703)- 746-5215. A Fax cover sheet is attached to this office action for your convenience. We encourage your participation in this Pilot program. If you have any questions or suggestions please contact, Thurman Page, Supervisory Patent Examiner, at (703)-308-2927. Thank you in advance for allowing us to enhance our customer service. Please limit the use of this dedicated Fax number to responses to written restrictions.

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 2, 6-9, 14-18, 27, 28 and 30-37, drawn to wound care bandage comprising collagen matrix, a method of promoting wound healing using the collagen matrix bandage and a kit comprising the bandage, classified in class 424, subclass 447.
- II. Claims 3, 4, 10-13, 19-26, 29 and 38, drawn to are drawn to wound care bandage comprising small intestine submucosa (SIS), a method of promoting wound healing using the collagen matrix bandage and a kit comprising the bandage, classified in class 424, subclass 447.

The inventions are distinct, each from the other because of the following reasons:

Art Unit: 1615

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, the wound healing bandage of group I comprises collagen matrix and the bandage of group II requires small intestine submucosa layer. The collagen matrix of group I is not necessarily always derived from SIS.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Jill Powlick on 5-20-02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lakshmi S. Channavajjala whose telephone number is 703-308-2438. The examiner can normally be reached on 7.30 AM -4.00 PM.
